

Cycle Summary Report

Date: 12 August 2026

Pipeline throughput, approval/rejection rates, compliance averages by institution type.

REGULATORY FRAMEWORK UGC Compliance Portal 2024-25	VERIFICATION PROTOCOL Automated NLP + ML XGBoost Validation	STATUS OFFICIALLY VERIFIED
TOTAL APPLICATIONS EVALUATED 4,812 Cycle 2024-25 Total Applications	AVERAGE COMPLIANCE RATE 84.5% Verified via NLP Algorithm	
APPROVED INSTITUTIONS 3,891 Compliant State & Central Universities	PENDING REGULATORY REVIEWS 921 Awaiting Expert Evaluation	

1. Executive Compliance Summary

This report compiles real-time compliance metrics, NLP parameter extractions, and XGBoost machine learning probability scores across evaluated higher educational institutions under UGC regulations.

2. Key Findings & Anomaly Discrepancies

Automated document hash verification detected high-risk discrepancies in faculty ratio declarations and land infrastructure documentation across select applicant institutions.

3. Inter-Rater Consistency Audit (Cohen's κ)

Evaluator panel calibration shows an overall Cohen's Kappa score of 0.84, confirming strong agreement and minimal litigation risk across review panels.
